Values

The school recognises the value of each pupil as an individual and celebrates diversity within the community. We nurture every aspect of pupils' personalities - intellectual, creative, emotional, physical and spiritual. Support for each other and the beliefs of the individuals within the community are key.

We encourage the pupils at all times to discuss topics which are causing concern with the relevant staff, and we work together with parents to provide a secure and supportive environment where all ages, cultures and religious backgrounds can thrive.

We believe in empowering our pupils to become bold, confident, courageous, resilient and fearless young women of integrity in an environment where they enjoy not only equal opportunity but every opportunity.

Aims

We aim:

- To provide an excellent academic education in a caring and supportive atmosphere;
- To offer a bespoke educational pathway for each student;
- To give opportunities for each pupil to develop creatively, intellectually, spiritually and morally;
- To create conditions in which initiative and independent thought and inquiry are welcomed and a lifelong enjoyment of learning is cultivated;
- To foster good standards of behaviour and mature, responsible, considerate attitudes both in and out of school;
- To encourage all pupils to participate in a wide range of extra-curricular activities which encourage personal and physical development and which inculcate a sense of self belief and esteem;
- To provide opportunities for pupils to act as leaders in the school community and to work together with the wider community;
- To ensure, as far as possible, that pupils are equipped to face the challenges and demands of life beyond school, becoming women of the world in the 21st century.
